## WOMEN'S CENTER

...there's hope in the unexpected!

**THANK YOU** - you changed my life! When was the last time you heard those words? If you haven't heard them lately, you need to. YOU are an answer to our prayers and a blessing to many!

Your financial gift has allowed the vital ministry of Expectations Women's Center to continue meeting physical, spiritual, and emotional needs of many in our communities. We have served more than 275 clients so far this year and have had over 650 spiritual discussions! We are excited about the words of truth we are speaking into the lives of our clients.

Sitting with clients to hear their story and walking with them through some of their most difficult life circumstances is a privilege and opportunity to offer hope and encouragement that will last far beyond their time with us. We can find ourselves wondering how they are doing long after they have stopped needing our services and sometimes God allows our paths to intersect, allowing us to see the difference Expectations Women's Center has had in their lives.

That happened recently as I attended a community event and was so very humbled to see a previous client speaking on behalf of a faith-based organization that she is now involved in. Prior to the start of the event I was able to connect with \*Rebecca for a few minutes and we had such a sweet reunion. However, that did not prepare me for what she was about to share as she stood to speak to the group. Allow me to share just a few of her words - *"I am so grateful that Expectations Women's Center was there when I needed them. I walked into their office a stranger and left as a friend. I don't know what I would have done without them encouraging me, teaching me and praying with me. Thank you - you changed my life!"*

Your financial gift makes life-changing stories like this possible. You play a vital role in offering truth and hope to so many. Again, allow me to say THANK YOU, you are changing lives!
